

Natural Energy Efficiency and Sustainability (NEES)

Draft Template for Public Events

1. Name and Description of the Event

This should be a general non-technical description of the Event. In particular whether it covered, and how it contributed, to the following themes:

- Energy Efficiency in Building
- Sustainable Development
- Combating climate change
- RTD and innovation
- Promotion of new products and services
- Networks of producers and service providers
- Partnership between academic, public authorities and SME's
- Public dissemination of the above

The public event held in Sisimiut, Greenland in August, 2013 presented about the NEES project to people from the local municipality, national housing company, energy consultancy, local media, students from local school and normal citizens. The event was composed of presentations about the whole project, the outcomes, the pilot project in Greenland and a poster session introducing the NEES Best Practices.

The NEES Best Practices were promoted in Greenland. The networking between NEES partners, the local authority of Sisimiut, Greenland and local SME's was set up and strengthened. Through advertisement in the local TV and radio the NEES public event was very well promoted. Many people came to the event.

4. Date and Location:

Aug. 16, 2013 in Sisimiut, Greenland

Please specify date and location of the event

5. Supporting materials:

Please provide the following if available:

- Web Links to Event Details
- Copies of dissemination materials from Event (as above)
- Photos from the event
- Press articles on the event
- Other relevant materials

6. Conclusions – relevance of the event.

Please explain how the event promoted the objectives of the NEES Project and of the European Commission's Northern Periphery Programme.

The public event presented the NEES project with presentations and posters. For the presentations an interpreter translated from English to Greenlandic for the local people. Thus not only the local authority, professionals from the building industry but also the local people had the opportunity to learn about the NEES knowledge.
