

Natural Energy Efficiency and Sustainability (NEES) Project  
Northern Periphery Programme (NPP)  
**Public Event Greenland**  
August 16th 2013

Dear Sir or Madam,

We would like to invited you to our public event for our EU-funded project NEES (Natural Energy Efficiency and Sustainability), which is described below, at Hotel Sisimiut on Aug. 16th from 13.30 to 16.00, including presentations, poster session and a reception with drinks and snacks at the end. The entrance is for free. There will be an interpretor translating from English to Danish.

The NEES (Natural Energy Efficiency and Sustainability) project is an EU funded project. This Project will identify and promote products and services which aim to improve energy efficiency in existing domestic buildings, which make use primarily of renewable or recycled materials and services based on natural processes, which originate and are normally accessible in the Northern Periphery Programme region (including Greenland, Sweden, Finland, Ireland, Northern Ireland, Scotland, Iceland, Norway and Faroe islands). These products and services should have the potential for being mainstreamed and commercially disseminated inside and outside the region. We have selected 13 Best Practices in the NPP region. On the public event the Best Practices will be introduced with posters.

This event will be held at:

Hotel Sisimiut,  
Aqqusinersuaq 86  
3911 Sisimiut

The program of the event:

13:30 – 14:30 Presentations about the NEES project

14:30 – 15:00 Poster session

15:00 – 16:00 Reception with refreshment, social networking

Northern  
Periphery  
Programme  
2007–2013

Innovatively investing  
in Europe's Northern  
Periphery for a sustainable  
and prosperous future

European Union  
European Regional Development Fund

We hope to see many of you there!
